RUSSIAN ADVANCE STEADY; AUSTRIANS RALLY ALONG VISTOK

Heavy German Reinforce- Millionaire, Leader of East ments Aid in Attempt to Check Movement to Cracow.

PETROGRAD, Sept. 24. Rallying their forces behind the Vistok River, the Austrians are giving battle to the advancing Russian troops along a curved line extending from the foothills of the Carpathians east of Jaslo to Debic on the Vistok River, according to advices received at the War Office today.

HEAVY LOSSES REPORTED. Supplementing previous announcements of the fall of Jaroslaw, the following statement was issued at the War Office

On September 21 the Russian troops took by storm the fortification of Jar-eslaw on the right bank of the river San. They took twenty cannon, even though the enemy offered heavy re-sistance, and blew up the bridge over

The Russian cavalry is pursuing the retreating Austrian rear guard and is inflicting heavy losses, although the inflicting heavy losses, although the Austrians destroyed many bridges. Every day the number of prisoners and seized cannons increase. The demoralization of the enemy is shown by the pillaging and the panicky retreat. Prisoners assert that the majority of their officers are killed or missing and that the soldiers feel the loss keenly. The newly formed Russian regiments have covered them. sian regiments have covered them selves with glory, fighting side by side with the veterans.

The Austrian troops have been reinforced by large forces of Germans, and the combined armies are offering a desperate resistance, but the Russians are advancing steadily, the General Staff

It is expected that a few days must clapse before a general battle ensues, The Russians are occupying Rzeszow as their base, and troops are being rushed to that point from Jaroslaw, while the dg siege guns are keeping up an unceasing bombardment of Przemysl.

PRZEMYSI, INVESTMENT COMPLETE. no danger may be anticipated from the garrison of Przemysl is shown by the rapid advance westward from Jaroslaw. The investment of Przemysl is complete and this has cut the Austrian army off

from one of its main supply stations. FLOODS IMPEDE RUSSIANS. Terrific rainstorms are flooding the rivers of western Galicia, according to a grave as he continued:

"After all, the one hope of India faces an enormous task in getting to Cracow, which is recognized to be their present objective. Many bridges have been swept away and a large part of the Country turned into a morass.

Reports received in Breslau from Aus-

trian sources state that the Russians have already suffered enormous losses, but that they are pouring troops into Galleia to fill their ranks.

Minister of War Suknimlinoff declared

today that the advance of the Russians | which are not yet found between Fig. to the River Vistok had effectually pre-vented the Austro-German forces from making any attempt to relieve Przemysl

While our steady advance westward continues without interruption, the operations south of Przemysl are being directed to the capture of Chirow, an important junction point. This will give us control of the southern line lending to Cracow and the roads leading to Hungary.

Our troops are meeting with some resistance, but the enemy is not strong enough to hold us back there. We already control 800 miles of railway in Gallela, and, with the capture of Chirow, we shall have two-thirds of all

GERMAN REINFORCEMENTS.

Although the fighting along the Vistok indicates the Austrians have been strongly reinforced, the positions taken by the Russian armies promise that the Austrians and Germans as well will be forced back to Cracow. Within a week, I believe, the combined Austro-German forces will be completely crushed.

AUSTRIAN ARMY ENTRENCHED FOR NEXT GALICIAN BATTLE

Vienna War Office Claims Success in Counter Attacks on Victula.

VIENNA, Berlin and Amsterdam, Sept. 21 The Austrian troops in Galleia having selected the battle ground upon which they will oppose the Russians are now on the offensive, it was announced today. Heavy fighting is soing on along a line extending from the Vistula River to Przemysk the official statement says, and every attempt of the Russians to break through this line has been repulsed. The statement continues:

The Austrian armies, directed by the

The Austrian armies, directed by the able strategy of the General Staff, are new in the positions to which they were assigned, and their counter at-tacks against the Russians are stopping the enemy at all points.
With the left wing reating upon Crathe centre strongly intreached, it is anticipated that there will be no great difficulty in holding back the enemy, who is advancing too far from his base to continue the conflict for any length of time.

Among the Austrian officers listed as missing is General Von Hincke. He is reported to have been wounded at Lem-

7,000,000 HINDUS LOYAL TO BRITAIN READY FOR SERVICE

Indian Mohammedans. Declares India's Hope Is With England.

LONDON, Sept. 24. "Germany made a mistake about India as it did about Ireland, and anybody who counts on India to be false to England will come a cropper."

In these words his Highness the Aga Khan, the recognized temporal leader of 60,000,000 of East Indian Mohammedans, sums up for the World correspondent the Indian Empire's status in the world's war. The Aga Khan has directed the Klioja Moslems, who alone number sayeral millions, and of whom he is the

spiritual as well as the temporal head,

to place their personal services and resources at the disposal of the Government, and has volunteered to serve himself as a private in any regiment of infantry of the Indian expeditionary force. The Aga Khan laughed heartly over the suggestion that the Germanistic propaganda might undermine the loyalty

of Great Britain's Indian subjects. He remarked smilingly: "Many of my fellow countrymen have been in Africa and have seen the German administration in the German East and Southwest African colonies. They know what Germanization of India would mean, and they know, too, that if England were driven out of India, Germany, should she be successful in this war, would step in. The thinking element among Indians of all classes realize that our country, divided as it is into hundreds of principalities, each inclined to be jealous of the others, could not hope to stand alone, even if British rule were

withdrawn.

GERMAN PURPOSE KNOWN. "Germany's twofold purpose in striving to create dissension in India is first That the Russian General Staff believes to give trouble to England, which might cost her victory in the war; second, to seize India as part of the Kaiser's dream

of world empire. "This scheme is as well known to India as at Berlin. India will need to assistance from England to frustrate because the Indians fully comprehend to peril of being crushed beneath the mailed fist of Prussian militarism

The Aga Khan's manner became mein the King and Emperor and his G ernment. There can be no united Inc. until England has dished her work of knitting together into one strong nation

the confusing jumble of races, religious and castes she has governed so suc-cessfully for 150 years. "An apt comparison is American domination of the Philippines. But there exist now between England are India affections and sentiments arising from their long community of interes s

BLAMES GERMAN VIEWPOINT "Such feeling I believe to be incomprehensible to the Germans. It seems to me they totally lack a sense of proportion, arising from a sympathetic understanding of the needs of another people. It is incomprehensible to them that Beigium should have resisted their advance into France. Apparently they fail utterly to understand the feeling that, for instance, would actuate an American if an alien nation attempted

to send an army through the United States to attack Canada. 'Personally, my antipathy is not toward the German people, who possess many fine qualities, but against the Prussian school of Bernhardis, Nietzsches and the Kaiser's General Staff-a school designed basically for the rushing of liberalism and independence

of any kind, whether manifested in Germany or abroad." "Will Indian troops be able to stand against the German army, considering they have never before been permitted

fight white men?"
"I think so." the Aga Khan replied with a quiet smile. "If need be there can be 700,000 or 7,000,000—that wouldn't a great number to offer from our 22,000,000 population. No. Despite the effusions from Wilhelmstrasse, you may rest assured that there is not the doubt as to India's loyalty to Eng-

COLLET'S AVIATION EXPLOIT MAKES NEW ENGLISH HERO

Raid of German Frontier Relieves Gloom Over Naval Disaster. LONDON, Sept. 24. Licutement C. H. Collet is the hero of

Engined today. His action in successfully leading a squad of five British aviators across the German frontier and droptors across the German frontier and dropping hombs at Ducaseldorf has lifted a little of the gloom caused by the sinking of England's three hig cruisers.

Lieutenant Collet, who originally was attached to the Royal Marine Artillers, ranks as one of the most daring and skilled aviators in England, although he took up flying only a little over a year ago. He was one of the first men in England to make 1000-foot spirals in a heavy biplane. He is expert at looping-the-loop and has complete mastery of his machine at all times.

He flew 275 miles last spring without a stop, in attempting to make a 500-mile

a stop, in attempting to make a 500-mile non-stop flight. Engine trouble then forced him to descend. THE RED CROSS AT FALMOUTH

Ship to Land Detachments for Medical Service in War.

LONDON, Sept. 2t.—A dispatch from Falmouth says the American steamship Red Cross, bearing the American Red Cross detachments to the European bat fieldeds, has reached that port. Rear Admiral Ward, U. S. N., retired, will take over the command at once. Four Red Cross units two for the Eritish and two for the Russian armies. Eritish and two for the Russian armies-will be landed at Falmouth, after which the Red Cross will proceed to Brest to land the French units and then to Rotterdam to land the German and Austrian detachments.

PITTSBURGH MAN INJURED
